endar on the web
site for upcoming
training and events**

CHIEF'S CORNER

The beautiful fall weather we are having has really been great, but as you know this means the beginning of grass/brush fire season. Beginning Oct.15 burn permits are required. Call 925-2675 to get a permit. Also reminder all grass fires respond non-emergency unless structures are in danger. Looks like winter weather will arrive this week. Reminder to drive carefully this winter and slow down in bad weather. Also check the heat in your stations, be sure it works but keep it turned down as low as possible to save energy.

OFFICER EVALUATIONS

As you should be aware the bi-annual officer evaluations have been completed and we are in the process of reviewing and scouring the evaluations. Thank You to all of you

that took the time to complete the evaluations. We will meet with all the district chiefs and review the results and make any changes if needed. This should be finished within the next month.

GRANT UPDATES

The grant for the new pumper and tanker for D-15 is going slow, but we hope to bid out the trucks in a couple months and the take delivery next summer. The new grant that we are working on now (thanks for getting the surveys done) will be for a total communications upgrade as well as possibly a pumper and tanker, still not finalized.

A big "THANK YOU" to all that attended classes or helped with the TN River weekend, you made it a great success!
